LEWIS & Co.

If a man's dinner is right, and he rises from the table conscious that his wife has used the same judgment as to price that she did in the selection of the articles disposed of there can be no indigestion to follow. Our goods are of the kind which bring health, happiness and a fat purse.

Table delicacies are a fad with us—they are bought because we know the average Honoluluite is fond of good things for the stomach. Our prices are below the average and special inducements are offered to cash purchasers. Our latest importations include the best goods obtainable in the English markets.

Copeland's English Peas; Cod's Roe, Mackerel in Mustard Sauce and Cambridge Sausages in tins are so well put up that it would be difficult to detect the difference between them and the same articles direct from the market. "Teyssonneau" is a long name to put before Pate but the combination makes the best tid bit ever placed before a gourmet. These are goods that anyone may eat without fear of indigestion following. They are put up in the best factories in Europe and come to us in elegant condition.

Mr. Brown said most decidedly not. He was opposed to making exceptions for anyone. If the Chinese Minister was allowed to land, every cabin passenger on the Gaelic would have the same right. He was decidedly opposed to making any exception whatever to the quarantine regulations and would move that it be the sense of the Board that none should be made. The motion was strongly supported by other members and passed unanimously.

Agent Reynolds made a verbal report that a whaling ship recently called at Kealahou bay and took on a quantity of water and ballast. The vessel was not boarded by any physician during her stay. Asked if the vessel had been boarded by any customs officer, Mr. Reynolds replied that he could not say. He thought not.

Dr. Day invited the members of the Board to take a wagonette drive with him on Saturday afternoon. This brought out the fact that several members of the Board were not in accord with Attorney-General Smith on the location for the proposed new cemetery. Dr. Day has found a site which he considers more suitable than any yet mentioned and he will show it to the Board on Saturday, but at present won't say where it is located.

pox on board ten days after her arrival from Japan. There were up to date 29 cases, of which 18 were Europeans, with one death.

Several letters were received from Dr. Eldredge of Yokohama in relation to the smallpox epidemic, which he states was slightly increasing in some portions of the infected districts and diminishing in others. He called attention also to two cases of the plague which had been reported from Formosa and stated that he had reason to believe the disease was lying quiescent at Formosa and that it would probably break out on the recurrence of hot weather. He feared that it would easily gain a footing in Japan from the frequency with which small trading vessels, manned entirely by Japanese, passed between the two countries. The doctor also stated that the Japanese people were becoming restive under the restrictions imposed by the quarantine regulations of the Hawaiian and United States Governments.

Minister Cooper from the committee to examine into the adequacy of the present laws for the restriction of tuberculosis said both himself and Dr. Emerson had carefully examined the special laws on the subject. There was some doubt whether they were sufficient for the purpose. The committee was of opinion that the Board could obtain jurisdiction by passing a resolution to the effect that tuberculosis was prevalent in the islands and a menace to public health. This would bring the matter directly under the control of the Board.

Dr. Emerson agreed with Minister Cooper and offered a resolution which he thought would cover the matter. It was read and discussed, and the general opinion of the Board being that it was not strong enough it was referred back to the committee with instructions to report at the next meeting. After the passage of this resolution the Board will take immediate steps to stamp out the disease. The statement was made that the Woodlawn dairy people were not only willing but anxious to have their cows examined, provided the inspection was legally made and by competent officials.

Minister Cooper stated that the next regular steamer from the Orient would have on board the new Minister from China to the United States. He understood that he was desirous of landing here and paying his respects to the Hawaiian officials and greeting his countrymen. He wished to have the sense of the Board as to whether it was advisable to make an exception in the quarantine regulations and allow the Minister to land.

No Cause for Alarm!!!

Now that we have found a preparation that is a powerful disinfectant, perfectly harmless, free from odor, convenient to use and at the remarkable low figure of—

5 Cents a Gallon.

No prudent housekeeper can afford to run the risk of contracting sickness, which is sure to occur, should you neglect to keep the sewers, cess-pools and outhouses in a perfectly deodorized condition.

Purifine 25c.

Any Physician will endorse what we claim when we tell you that nine tenths of all fevers and alike illness is the result of carelessness about the sanitary conditions of the premises.

Purifine 50c.

One great objection to most disinfectants is that they have such a disagreeable odor. Purifine is odorless.

Purifine \$1 00.

Don't delay in purifying the air you daily breathe and trust to kind providence that you may escape illness. Now is the time to commence the good work, don't wait until the dead heat of summer has arrived; it may be too late.

Take time by the forelock. To be forewarned is to be forearmed.

Purifine in quantities to suit. We are the Sole Agents.
